Proposed Budget

| FUND SOURCE | FUND NAME | PROPOSED FUND AMOUNT |
|-------------|------------------|----------------------|
| MHD | Non-Reimbursable | \$614,400 |
| MHD | TIF | \$306,300 |
| MHD | CFF | \$289,000 |
| TOTAL | | \$1,209,700 |

The proposed budget distribution shown above is based on assumptions regarding the pace and quantity of construction activity described in the RFP during the 2019-2020 contract year. We also analyzed our monthly inspection activity over the past five (5) construction seasons and used it as a rough guideline for what we felt Harris might reasonably be expected to support in the upcoming year.

Our proposed budget assumes the presence of a Registered Civil Engineer / Resident Engineer and two (2) Construction Inspectors on a nearly full-time basis. If required, a third full-time Construction Inspector will be requested during the year as construction activity dictates.

Unless the pace of construction activity in 2019-2020 significantly exceeds what Harris has experienced during the past five (5) construction seasons, we don't expect to fully expend the budget amounts proposed herein. But previous experience at Mountain House has demonstrated that it's wise to "guess high" when proposing new inspection budgets. As has been the case in past years, Harris will continue to be sensitive regarding how and when we expend our client's budget. As construction activity slows down, unneeded inspection staff will be sent home or reassigned to other Harris projects as appropriate. We welcome our client's comments and guidance regarding the level of inspection staff that we have on-hand, and are always happy to discuss the same with our client.

BUDGETARY NOTES AND ASSUMPTIONS (see attached budget spreadsheets)

- 1. Compaction testing will be performed by others. Test reports will be spot-checked by Harris.
- Harris shall not take any responsibility for the condition or performance of gas distribution and service lines, including joints.
- 3. Contractor work day shall not exceed eleven hours. Contractor work week shall not exceed six days.
- 4. The number of Harris inspectors utilized onsite shall be subject to MHCSD approval.
- 5. Inspection wage rates shown for Harris personnel at Mountain House shall comply with appropriate Prevailing Wage requirements as set forth by the State of California.
- 6. Overtime costs for Harris personnel at Mountain House shall be borne by MHCSD.
- 7. Harris' inspectors shall work up to five (5) or six (6) days per week as needed, depending on the pace of developer/construction work. If Harris personnel are routinely needed in excess of 40 hours per week, additional operating budget will be requested.
- 8. A Project Manager/Resident Engineer will oversee Harris' inspectors on an as-needed (but not necessarily full-time) basis. The Resident Engineer's role is primarily administrative, along with providing technical expertise when needed. If the pace of construction routinely necessitates the Resident Engineer's presence in the field, Harris will propose an additional field inspector at additional cost.
- 9. An on-call Harris special inspector for traffic signals, above-ground structures or other special inspections may be needed occasionally during the upcoming contract year. These individuals can be brought onsite as needed, and shall be billed at the rates contained in this proposal.
- 10. This cost proposal anticipates a moderate level of work activity performed by one full-time Resident Engineer and two (2) full-time Construction Inspectors during the period from July 1, 2019 to June 30, 2020. Harris also proposes a third full-time-time inspector during the period of July 1, 2019 to June 30, 2020 on an as-needed basis. Some overtime is anticipated based on historical data.
- 11. No allowance is included for vacation time by any Harris employee. It is likely that time spent offsite by the Resident Engineer or Construction Inspector will require a replacement who will be billed at the same rate.

- 12. These budget estimates were developed from the RFP provided to Harris dated May 16, 2019.
- 13. The cost of any vehicles needed during the course of these duties is included in the hourly rates provided.
- 14. The cost of administrative office / supplies used in direct support of Harris' activities at Mountain House (on-site trailer, phones, computers, printers, and mobile devices, consumables such as paper, ink, pens, pencils, note pads and so forth) is included in the hourly rates provided.

- · MHCSD's construction standards and practices.
- · The myriad of construction plans in use.
- Specific contractors employed at Mountain House.
- The hierarchy and relationships existing between MHCSD, Mountain House Developers, various contractors, and local utility providers.

If schedules change (and past experience has shown that they will), we will seek your approval for any necessary personnel and/or budgetary adjustments on a case-by-case basis.

TERM OF THE PROPOSAL

The term of this proposed on-call contract shall be from July 1, 2019 through June 30, 2020.

AMOUNT OF THE PROPOSAL

The amount of the proposed on-call contract shall not exceed \$1,209,700 (One Million Two Hundred Nine Thousand Seven Hundred Dollars). Actual expenditure of these funds will depend on the pace and nature of construction activity during the 2019-2020 fiscal year.

Harris appreciates the opportunity to submit this proposal to the District. Please do not hesitate to contact me should you have any questions regarding this proposal.
