### **SUBJECT: 60 Day Notice of Urban Water Management Plan Update**

To Whom It May Concern,

The Mountain House Community Services District (MHCS D) is currently in the process of updating its Urban Water Management Plan ("UWMP"). The Urban Water Management Planning Act, Water Code Section 10610 et seq., requires every urban water supplier providing water for municipal purposes either directly or indirectly to more than 3,000 customers or supplying more than 3,000 acre-feet of water annually to prepare and adopt an UWMP and periodically update that plan at least every five years. The UWMP is a planning document and a source document which reports, describes and evaluates water deliveries and uses, water supply sources and conservation efforts.

As an urban water supplier, the MHCS D coordinates with water management agencies, relevant public agencies and other water suppliers on the preparation of the UWMP.

If you wish to contact the MHCS D about its review process, you may do so by writing to the undersigned or by email to Hamid Parsa ([hparsa@sjgov.org](mailto:hparsa@sjgov.org)) and Doug Louie ([dlouie@sjgov.org](mailto:dlouie@sjgov.org)).

Sincerely,

Nader Shareghi, PE., D.M. CSPE  
Public Works Director
